TRANSATLANTIC STATION  
TELEGRAMS,  
EXPANSE, GALWAY.

Clifden. 8723  
Connemara,  
Co. Galway,  
Ireland.

July 1<sup>st</sup> 1910

Dear Lord Aberdeen.

I sincerely hope you  
will forgive me for not  
having replied before now  
to your very kind letter  
of the 26<sup>th</sup> ult. I have  
been travelling about much  
a lot lately.

Thanks so much for what  
you say about the wireless  
telegram from Vernon. B.C.  
which I now return.

I am negotiating with  
the Post office to try and  
get them to put the  
actual place of origin,  
instead of Dublin or  
Chisden, on telegrams  
which come by my system

from Canada or America.

The visit of Your Excellency  
gave me the greatest pleasure  
(as I am sure it did to  
all the people round here)  
and my only regret is  
that it was so short.

I shall certainly be  
delighted to be allowed to  
pay you a visit in Dublin.

I hope to be able to do  
so some day, and shall  
write as soon as I am

a little more certain as to  
my future movements.

I thank you so much,  
also on behalf of my wife,  
for your very kind invitation.

With my best regards.

Believe me, Your Excellency

Yours very sincerely

G. Marconi

## CHURCHILL MESSAGE TO TRUMAN RECALLS MARCONI'S TRIUMPH

LONDON, Dec. 12 (AP)—Prime Minister Churchill today marked the 50th anniversary of the first radio transmission across the Atlantic with a message to President Truman.

Guglielmo Marconi sent the first trans-Atlantic wireless message on Dec. 12, 1901, between Poldhu, Cornwall, England, and St. John's, N. F.

Churchill's message to Truman said: "It is with pleasure that I send you my greetings by wireless on this 50th anniversary of the first radio message across the Atlantic."
